DETAILED ACTION

Claim Objections

Claims 20, 32, 35 and 36 are objected to because of the following informalities:

In line 11 of claim 20, "the" should be inserted prior to "shutter member" and "valve seat," respectively. In claim 32, line 3, "i.e." should be deleted as should "e.g." in claims 35 and 36. Appropriate correction is required.

Claim Rejections - 35 USC § 112

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 20-38 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention. The following recitations are noted to be vague and indefinite: "apt to be" in lines 3 and 17 of claim 20; "apt to receive" in line 14 of claim 20; "characterized in" in line 17 of claim 20; "apt to be" in claim 28 and "the like" in claim 36. The following recitations are noted to lack antecedent basis: "the abovementioned waterworks piping" in line 14 of claim 20; "the sides" and "the inside" in lines 19 and 20 of claim 20, respectively; and "the radiator" in claim 33. In claim 33, there is a double recitation of "comprising additional supporting means."

Claim Rejections - 35 USC § 101

35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

Claim 37 provides for the use of the hydraulic joint articulated device in combination with a heat radiator, but, since the claim does not set forth any steps involved in the method/process, it is unclear what method/process applicant is intending to encompass. A claim is indefinite where it merely recites a use without any active, positive steps delimiting how this use is actually practiced.

Claim 37 is rejected under 35 U.S.C. 101 because the claimed recitation of a use, without setting forth any steps involved in the process, results in an improper definition of a process, i.e., results in a claim which is not a proper process claim under 35 U.S.C. 101. See for example *Ex parte Dunki*, 153 USPQ 678 (Bd.App. 1967) and *Clinical Products, Ltd. v. Brenner*, 255 F. Supp. 131, 149 USPQ 475 (D.D.C. 1966).

Allowable Subject Matter

Claims 20-36 and 38 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
